

Stock Supervisor

CRIBWARE® Stock Supervisor provides secure and easy access to material stored in Lista cabinets. Utilizing the Lista e-Lock mechanism, the cabinet is unlocked using password control, and automatically re-locks to restrict access. The user quickly scans the items to be removed using a bar code reader, and the CRIBWARE software tracks the material usage, reordering when the stock runs low.

Standard Lista cabinets are available in various heights and drawer configurations to meet unique storage demands and are designed to save space and permit efficient material organization.

Features

- Cabinet entry requires a password and is tracked by the CRIBWARE software.
- High density SKU storage in standard cabinets.
- Cabinets unlock for item issuing, returning, receiving, restocking and transferring, and re-lock at the completion of the activity.
- Sentinel controls up to ten cabinets with one master station.
- Existing Lista cabinets may be retrofitted with e-Lock controls.
- Emergency unlock is available.
- Cabinets available in various heights and drawer configurations, with customizable drawer compartments.
- Very flexible storage configurations, almost any item may be stored.

Benefits

- Easy to implement. Easy to learn. Easy to use.
- Reduce shrinkage and increase security.
- Decentralized item control for use on the plant floor in restricted access cabinets.
- Items are secure until needed and are managed by the CRIBWARE system, providing multi-level security and dynamic reporting.
- Items may be stored and organized at the work center where they are needed.
- Reduce inventory levels while improving inventory accuracy and accountability.
- Automatic reorder and inventory level management.
- Standard, durable cabinetry with flexible item storage.

Bar Coding

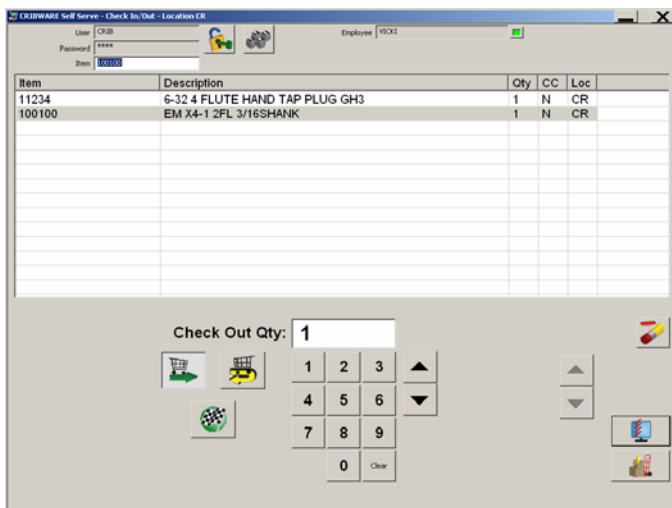

CRIBWARE bar code technology offers simple, accurate and cost effective data collection solutions. Utilize bar code technology to improve accuracy, efficiency, and user acceptance.

- **Bar Code Readers**
Rugged, industrial cordless scanners for economical label scanning.
- **Bar Code Label Printing**
Easy, on-demand, one-step printing available.

Stock Supervisor Operations

CRIBWARE Self Serve Technology

- Self servicing, fast access to items
- Simplified, intuitive user interface, requires minimal training
- Accurate, data collection- the bar code scanner doesn't make mistakes.
- Fast issuing- one bar code scan equals quantity one, two scans equals quantity two.
- Quick returns- simply scan the bar code label.
- Optional touchscreen & touch monitor technology can eliminate need for mouse and keypad.
- Fragile item control and handling- the item does not drop or require repackaging; the user handles the item directly.

More than Secure Storage

CRIBWARE is an easy to use, powerful and cost efficient solution to the management of supplies, tools and indirect materials. The system is modular and very economically priced.

- **Item Identification and Classification**
Easily setup and classify material. Organize the workstation for optimal efficiency.
- **Usage, Cost and Location Tracking**
Flexible tracking parameters assure the right monitoring for your organization.
- **Inventory Control**
Always have the item on hand, but minimize inventory.
- **Purchasing and Receiving**
Automatically replenish and document receipts.
- **List e-lock Cabinet Access**
Control who unlocks the cabinet(s) and track access.
- **Item Issuing/Returning**
Use CRIBWARE to track perishable and durable material. Very large items may be stored and controlled external to the cabinet(s).
- **Management Reporting**
Online and hardcopy reporting with over 300 standard reports.
- **Security**
Limit access to cabinets and software functions
